INTRODUCTION

Early American Coinage

The first mint established in this country was authorized by the General Court of Massachusetts in 1651 and began operation in Boston the following year. The NE, willow, oak and pine tree coins were the product of this mint. The Bermuda coinage antedates the above by over thirty years but could hardly have had any circulation in the colonies.

In 1658 the Lord Baltimore coins were planned for Maryland but never achieved any circulation as they were all short weight.

William Wood received a Royal Grant to strike copper coins for use in the colonies and his Rosa Americana pieces undoubtedly had some circulation here as well as his Hibernia halfpence which were not accepted in Ireland.

After the Revolution several of the states established their own mints, those of New Jersey and Connecticut having quite an extensive coinage of great interest to present day collectors.

The various experimental and trial pieces speak for themselves as little is known about them, except that a large proportion of them originated in England, evidently as an effort to secure contracts for the preparation of dies for a new coinage.

To the collector who acquires a really scientific interest in this series Crosby's "Early Coins of America" is the only standard work and the sixty years since the publication have added very little to the general knowledge of the subject.

Establishment of the Mint

The United States Mint was established in Philadelphia by an act of Congress dated April 6, 1792 and began operations in March of the following year.

The cents and half cents were struck in 1793, the silver dollar, half dollar and half dime in 1794 and the eagle and half eagle in 1795. In 1796 the quarter eagle, quarter dollar and dime were first coined. The eagle was the gold unit and had a standard weight of 270 grains, with a fineness of 916⅔. The dollar was the silver unit and had a standard weight of 416 grains with a fineness of 892.4. The other gold and silver coins were in proportion. It was soon discovered that these units were undervalued and either being exported or sold as bullion, therefore in 1804 the coinage was stopped, only the smaller coins being continued. The law of 1834, amended in 1837, reduced the weight of the eagle to 258 grains of a fineness of 900 and this new coin was first issued in 1838. The law of 1837 reduced the weight of the silver dollar to 412½ grains also of a fineness of 900. The law of 1834 having placed too low a valuation on silver many of the fractional coins were sold for bullion so that the law of 1853 reduced the weight of the half dollar to 192 grains making all the fractional silver coins subsidiary.

The act of 1873 made necessary an increase in the weight of the half dollar to 192.9 grains in order to conform with the authorized weight of 12.5 grams.

Private Gold Issues

The gold coins struck by private assayers and mints in the United States form one of the most interesting series in the numismatics of our country. The first of these were issued by Templeton Reid, who established a mint near the gold mines in Lumpkin County, Georgia. The next coins were those struck by the Bechtlers, Christopher and August, from 1831 to 1842 or later. Their mint in Rutherford, N. C., struck pieces from the gold of Georgia and North Carolina to the amount of over two million dollars.

Upon the discovery of gold in California and the influx of prospectors and traders there was an immediate need for a medium of exchange other than the unwieldy bags of gold dust. Several firms struck coins in 1849 and the State Assay Office of California, with Frederick D. Kohler as State Assayer, began stamping ingots early in 1850; a few of these still exist. In the latter part of 1850 the firm of Moffat & Co. was designated as United States Assay representatives and Augustus Humbert of New York was appointed United States Assayer to place the government stamp upon the ingots produced by Moffat & Co. This business was in 1852 conducted under the name of the United States Assay Office.

The Mormon coinage grew out of the same necessity and appeared early in 1849. It did not, however, compare with the California coinages in actual intrinsic value. The firm of Clark, Gruber & Co. in Denver coined gold from the Colorado mines and produced over $500,000 worth in 1860 and 1861. The Parsons and Conway companies were much smaller operators.

Way up in Oregon the same need for a medium of exchange produced the two pieces struck by the Oregon Exchange Co. in 1849.

Pattern Coins

The complete series of gold coin patterns has now been listed. Through access to the splendid collection of F. C. C. Boyd we have been able to illustrate and describe the pattern dollars and half dollars. The balance of the silver patterns with the exception of trade dollars are now in the list and next year some of the minor patterns will be added. The tabulation of trial pieces of regular gold and silver issues rounds out this section of the catalogue.

General Information

Collectors are urged to consult this feature in the catalogue. Many questions brought up by new collectors will be satisfactorily answered by the information available.

Notes on the Various Denominations

This section of the catalogue was recently initiated and has proved very popular. Some additional information has been added in this edition and collectors are urged to express desires for further notes. During the year such new notes as are prepared will be published in the Coin Collectors Journal.

Editor's Note

Once again the editor wishes to thank the many dealers and collectors who, with their many suggestions, have greatly assisted in the compilation of this catalogue. The last year has been fully as active as the preceding one and prices have advanced in nearly all series although not quite so pronounced as during the previous year. Gold and speculative issues have been treated very conservatively although the unusual advance in gold proofs has not been ignored. Now that the wars are over it remains to be seen what effect normal times will have upon prices of coins in general. It was with considerable regret that present conditions made it necessary to increase the price of the catalogue but the publishers thought it important that the high standard of the publication should be maintained.

WAYTE RAYMOND.

EARLY AMERICAN COINS

COINS OF THE COLONIES

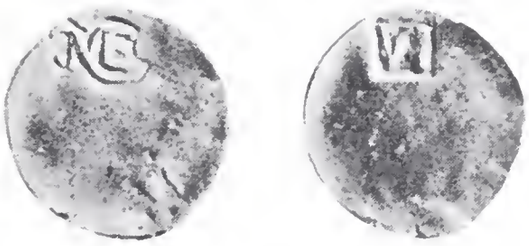
MASSACHUSETTS

Mint established in Boston, 1652

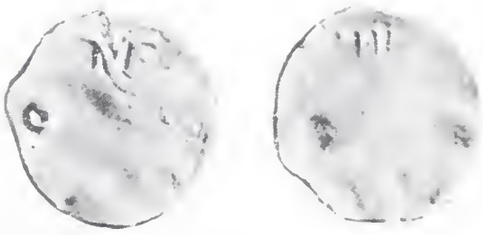
The first mint in the Colonies was operated by John Hull without royal license. The General Court of Massachusetts Colony, in an order dated May 27, 1652, authorized the coinage of shillings, sixpences, and threepences, and fixed Hull's fee at one shilling out of every twenty coined. The mint was located in the rear of Hull's residence in Boston and operations began in the same year. Hull prospered and when his daughter married he gave her a dowry consisting of shillings equal to her weight, the value of which is estimated at 500 pounds; a small fortune in those days.

The N E Coinage

	Good	Fine
N E Shilling	125.00	200.00



N E Sixpence	500.00



N E Threepence	600.00

Willow Tree Coins

	Good	Fine
1652 Shilling	150.00	300.00

1652 Sixpence	200.00	350.00

1652 Threepence	750.00

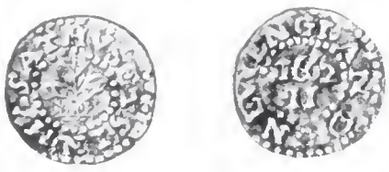
Crosby notes several varieties of the shilling and there are varieties of the sixpence. All are rare.

Oak Tree Coins

		Good	Fine
1652	Shilling	20.00	35.00

1652	Sixpence	25.00	40.00

1652	Threepence	20.00	30.00



1662	Twopence	10.00	20.00

The Crosby tables give eleven varieties of the shilling, eight of the sixpence, six of the threepence and three of the twopence.

Pine Tree Coins

		Good	Fine
1652	Shilling. Large size	20.00	35.00

1652	Shilling. Small size	15.00	25.00

1652	Sixpence	15.00	25.00

1652	Threepence	20.00	30.00

Crosby gives twenty-seven varieties of the shilling, two of the sixpence and four of the threepence.

Good Samaritan Shilling

1652 Shilling .....

Good Fine

Copper Penny .....

MARYLAND

Coinage of Lord Baltimore 1659

Lord Baltimore, who received his Maryland Charter in 1632, found tobacco an unsatisfactory currency and, in 1659, had a quantity of coins struck in London and sent to his brother Philip Calvert, in Maryland. In a letter of instructions he requested that the coins not be imposed upon the people without their consent.

	Good	Fine
Shilling	75.00	125.00

Sixpence	50.00	75.00

Fourpence or groat	100.00	150.00

CANADA

Coins authorized by Louis XIV

1670 15 Sous	250.00	500.00

1670 5 Sous	15.00	25.00

1670 Double. Copper	1200.00

FRENCH COLONIES

In General

During the reign of Louis XV the first foreign coppers were sent to America. They were struck in Rochelle and Rouen in 1721 and 1722. The 1767 Sous were struck in Paris and afterward countermarked RF under the Republic.

	Good	Fine
1721 Sou. M.m. H (Rochelle)	1.50	3.50
1721 Sou. M. m. B (Rouen)	10.00	35.00

1722 Sou. M.m. H	1.50	3.50

1767 Sou.	1.25	2.50
1767 Sou. Countermarked RF.	1.00	2.00

NEW JERSEY

Coins brought from Ireland by Mark Newby in 1681, known as "St. Patrick halfpence."

Halfpenny	5.00	10.00

	Good	Fine
Farthing	2.00	3.50

There are many die varieties of these coins and the farthing comes struck in silver and gold.

FLORIDA

James II (1685-1688). Plantation token

This token has been variously said to have been issued for Virginia and Florida, but the better view seems to be that it was struck for general circulation in the Colonies.

½ Part Real. Pewter	5.00	7.50

ELEPHANT TOKENS

Little is known of the history of any of these pieces but it has been conjectured that the Carolina Token was intended for use by the Carolina Company, the New England Token by the New England Company, and the London Token by the London Company. The legend of the latter, however, probably refers to the City of London.

CAROLINA

1694 Elephant halfpenny	50.00	100.00

	Good	Fine
1694 Halfpenny PROPRIETERS	100.00	250.00

NEW ENGLAND

1694 Halfpenny		750.00

LONDON TOKEN

(1694) Halfpenny	3.50	7.50

NEW YORKE IN AMERICA

Little is known of the first token associated with New York's history. An opinion has been expressed, however, that it was of Dutch origin and intended as a tradesman's token.

(1700) Token in lead or brass	50.00	100.00

THE ROSA AMERICANA COINS

These coins were struck by William Wood under a patent obtained in 1722 from George I. There were rumors current that it was granted through the intercession of King George's mistress who profited by the deal. The patent was for fourteen years but the coins were struck only during 1722 and 1723. They were of Bath metal, a mixture of silver, tutanaigne and brass, and 16 ounces of the metal were required to coin 30 twopence, 60 pence, or 120 halfpenny pieces.

The unpopularity of these attractive coins was due apparently to either their metal or to the arrangement made with Wood for their coinage, rather than to their appearance.

	Good	Fine
Twopence without date	3.50	7.50

1722 Twopence	4.00	10.00

1722 Penny	2.50	5.00

	Good	Fine
1722 Halfpenny	3.50	7.50

1723 Twopence	3.50	6.00

1723 Penny	3.00	5.00

1723 Halfpenny	3.50	7.50

1733 Twopence	500.00

There are several Rosa Americana patterns, all very rare.

WOOD'S COINAGE

Rejected in Ireland, sent to America.

George I, without first consulting the Irish Privy Council, also granted William Wood a fourteen-year patent in 1722 to provide minor coins for Ireland. These were issued in 1722, 1723, and 1724 but were extremely unpopular because of political reasons and Jonathan Swift, in his **Drapier Letters**, hastened their final rejection.

	Good	Fine
1722 Halfpenny	1.00	2.50
First type.		
1722 Halfpenny	2.50	5.00
Type of 1723.		

1723 Halfpenny	.35	.75
1723 Farthing	1.00	1.50
1724 Halfpenny	2.00	4.00

1724 Farthing	2.00	4.00

There are many die varieties of these coins, also several patterns.

CONNECTICUT

Copper coins struck by John Higley at Granby.

From 1737 to 1739, inclusive, John Higley, a copper mine owner of Granby, Connecticut, struck copper tokens for local use to supplement the few minor coins in circulation. The copper he used was so pure that his pieces soon wore smooth and specimens in excellent condition are difficult to find.

Good

1737 Threepence. Three hammers 100.00

1737 Threepence. I am Good Copper 100.00

(1737) Threepence. Broad Axe.....125.00

Threepence. Wheel design. Unique

VIRGINIA

1714 Gloucester shilling.. Brass Token issued by one Richard Dawson.

1773 Halfpenny. Mint state..... 2.50
Sometimes comes struck on a larger flan and known as a "penny."

1774 Shilling. Silver 900.00

COINS OF THE STATES

VERMONT

Vermont, the first state to mint coppers, passed an act on June 15, 1785 granting to Reuben Harmon Jr. the exclusive right to mint the following coins. The mint was located in Rupert and impressions were made by means of an iron screw, attached to heavy timers above, which was moved by hand with the aid of ropes.

	Good	Fine
1785 Cent. VERMONTS	5.00	15.00

1785 Cent. VERMONTIS	3.50	10.00

1786 Cent ..... VERMONTENSIUM.	2.50	7.50

1786 Cent. Baby head	3.50	15.00

There are die varieties of the above pieces.

	Good	Fine
1786 Cent. Bust left.....	12.50	
1787 Cent. Same obverse	25.00	

1787 Cent. Bust r.....	2.50	5.00

1787 Cent. BRITANNIA	3.50

Reverse always poor, date not showing.

1788 Cent	2.50	5.00

CONNECTICUT

In 1785 Samuel Bishop, Joseph Hopkins, James Hillhouse, and John Goodrich were authorized to establish a mint and strike copper coins. They formed a partnership with others and started minting operations in New Haven, but closed down in 1787. Coins weighing 28,944 pounds were passed by the Board appointed to inspect the products of the mint.

	Good	Fine

		Good	Fine
1788	Cent. Draped bust l.	2.00	3.50
1788	Cent. INDL ET LIB	2.50	5.00

The Connecticut cents have been the subject of much numismatic research and there are a wide variety of dies. Crosby gives over one hundred combinations, many of which may be subdivided.

KENTUCKY

The Triangle token, originated in Lancaster, England, but little is known concerning the Myddelton tokens. The only claim of the first token to Kentucky is the fact that the top star is stamped with a K.

		Fine	V. Fine
(1790)	Cent. Plain edge	2.50	3.50
	Cent. Lettered edge	3.00	5.00
	Cent. Engrailed edge		15.00

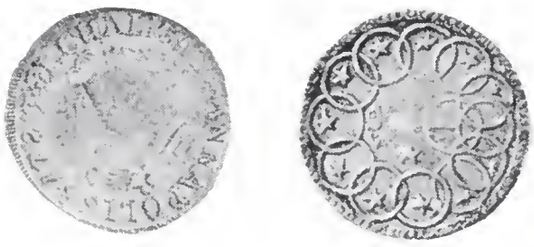
1796	Myddelton token. Silver	75.00
1796	Same in Copper	50.00

This token usually comes in proof condition.

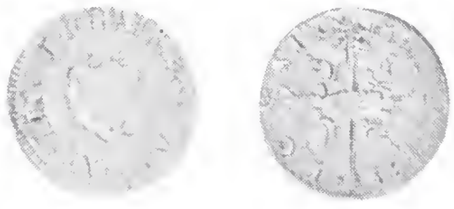
MARYLAND

Chalmer's tokens were issued by John Chalmers, a goldsmith of Annapolis, Maryland, in 1783. The Baltimore Town threepence made its appearance in Baltimore, Maryland, in 1790. It was struck by Colonel Standish Barry, who was a soldier in the Revolutionary War at the age of sixteen, and his portrait appears on the obverse.

		Good	Fine
1783	Chalmer's Shilling.	10.00	25.00



1783	Shilling. Rings	150.00	250.00



1783	Chalmer's Sixpence	50.00	100.00

1783	Chalmer'sThreepence	25.00	50.00

BALTIMORE TOWN

	Good	Fine
1790	35.00	75.00

Standish Barry Threepence.

MASSACHUSETTS

In 1786 the Massachusetts Legislature authorized a mint to coin gold, silver, and copper coins, but only the latter were struck, Because of the difficulty in getting machinery and materials, the coins cost the State of Massachusetts over two cents for each cent minted, and more than one cent for each half cent. Both of the earlier pieces are believed to have been patterns designed by Paul Revere.

1776 Halfpenny. Three heads.....750.00

1776 Cent. Pine Tree.....750.00

1787 Cent	2.00	3.50

	Good	Fine
1787 Half Cent	2.50	4.00

1788 Cent	2.00	3.50

1788 Half Cent	2.50	4.00

There are numerous die varieties of the cents and a few of the half cents.

NEW HAMPSHIRE

In June, 1776, the New Hampshire House of Representatives authorized copper coins, specifying the device and legends appearing in the pattern illustrated, but for some unknown reason no regular coinage materialized. The illustrated piece is apparently a pattern for the authorized coinage.

1776 Cent.....300.00

NEW JERSEY

An act was passed by the New Jersey legislature on June 1, 1786 authorizing the coinage of copper coins. Two mints were subsequently established, one near Morristown and the other in Elizabethtown, and both were in operation until the Federal constitution was adopted in 1788. The Morristown mint was operated by Walter Mould in his home, about two miles west of Morristown, while the coinage at the Elizabethtown mint was conducted by Albion Cox and Gilbert Rindle in a home known as the "Old Armstrong House."

Although all the "horse and plow" New Jersey cents of the regular issue are of a single type, there are enough varieties to satisfy the most enthusiastic collector.

	Fine
1786 Immunis Columbia Cent	300.00

1786 Eagle Cent	500.00

(1786) Washington Cent	1,000.00

	Good	Fine

1787	Cent. PLURIBS	2.50	5.00

1788	Cent	1.50	3.00

1788	Cent. Fox variety	5.00	10.00

1788	Cent. Horse's head l.	3.50	10.00

There are a large number of varieties of New Jersey cents splendidly illustrated on Dr. Maris' large plates. We only show some of the most interesting.

NEW YORK

New York state had no official colonial mint, but a private one was in operation at Machins Mill, in Ulster County. The Excelsior and Non Vi Virtute Vici cents are attributed to Thomas Wyon of Birmingham, England. The history of the Immunis Columbia, George Clinton, Liber Natus Libertatem Defendo and Nova Eborac cents is very obscure and unreliable.

The Mott and the Talbot, Allum and Lee tokens were issued by two New York firms as tradesmen's tokens to relieve the shortage of good copper coins in circulation. The Theatre at New York penny is one of a series of English tokens.

EPHRAIM BRASHER'S DOUBLOON

Most of the colonists were so poor they had little need for a gold coinage, but it was desirable for the larger business transactions so Ephraim Brashier, a New York goldsmith, struck a gold piece in 1787. These were worth $16 at that time, but are now extremely rare and valuable.

1787 Doubloon 3,500.00
Punch on wing. GOLD.

1787 Doubloon 5,000.00
Punch on breast. GOLD.

CASTORLAND

A French colony established at Carthage, N. Y.

This was apparently an honorarium given to officers of the company in charge of the French settlement, Castorville, in New York, for attendance at board meetings, but may have been in circulation. Modern copies may still be obtained at the Paris mint.

	Unc.
1796 Half dollar	7.50
Silver restrike.	
1796 Same	3.50
Copper restrike.	

Originals of this coin, struck on a thick flan with milled edge, are very rare.

RHODE ISLAND

This token, evidently of Dutch origin, shows Admiral Howe's flagship on obverse and troops landing on reverse.

	Good	Fine
1778-1779 Ship token	5.00	10.00

1785 Cent. Blunt rays .. CONSTELATIO.	2.50	6.00

There are several die varieties of these coins.

1786 Cent. Very scarce	50.00	75.00

THE FUGIOS

The Fugio cent was the first coin struck by authority of the United States, but it was minted by James Jarvis under a contract with the government. The Federal Congress specified that three hundred tons of these pieces be struck, and Jarvis purchased some of the copper which he used from the government.

Congress specified the design appearing on both the obverse and reverse of these cents. The legend and the obverse is literally translated "I [time] fly, therefore mind your business." Franklin doubtless influenced the adoption of the design and legend in its general form, although there is no record that he personally originated either of them.

1785 Cent. Vermont obverse	40.00	75.00

1785 Cent. George III obverse	40.00	75.00

CONFEDERATIO CENTS

These were also patterns and are believed to have been made by Thomas Wyon. It is very likely that all of them, except those muled with the New Jersey cents, were struck in England. One of these pieces was found in Berlin, Connecticut, in 1861 when some workmen were digging up an old drain.

1785 Cent. Small circle of stars 750.00

This reverse is also known combined with the 1787 New York eagle cent. It is extremely rare.

	Good	Fine
1785 Cent. Large circle of stars		750.00

There are two obverse dies of this variety. This reverse also comes combined with the rare New Jersey obverses — Immunis Columbia, eagle, Washington. A poor specimen is also known muled with the reverse of the 1785 Nova Constellatio cent. All of these coins are of extreme rarity.

MISCELLANEOUS

The Georgius Triumpho and Auctori Plebis tokens both have many characteristics of the Bungtown tokens which were so plentiful in the colonies. The Pitt token was perhaps struck originally as a medal, but was popular and subsequently used as currency. The Franklin piece was an English token.

The Bar Cent is believed to have been struck in England as a pattern for a United States coinage. The monogram on the obverse, composed of the letters U S A, was taken from the design appearing on a button of an old Continental uniform.

	Bar Cent	7.50	15.00

		Good	Fine
1794	Franklin Press Cent	2.50	3.50

WASHINGTON PIECES

This series is a very popular and interesting one because of the tribute paid to the father of our country. Most of them were designed and struck in England, and many were apparently intended for the American market. The only pieces struck in this country were the 1792 half dollars designed by Peter Getz of Lancaster, Pa.

Jacob Perkins Pattern Dollar

Dollar designed by Jacob Perkins of Newburyport. Silver.

SOMMER ISLANDS

(BERMUDA)

Settled by Sir George Somers in 1609.

The Bermuda Islands were once named **Sommer** in memory of Sir George Sommers [or Somers] who was shipwrecked there. James I granted a charter to certain English colonists residing on the islands which included the privilege of issuing coins "to pass currant" among the inhabitants. In 1616 the governor of the Islands learned that certain "base coyne" was being sent from England.

	Good	Fine
Shilling	100.00	150.00

Sixpence	75.00	100.00
Threepence	100.00	150.00
Twopence	75.00	125.00

These coins are struck in a brassy composition and were probably originally lightly silvered.

EARLY MINT ISSUES

Struck during 1792 and without doubt actually circulated as they are found in all degrees of condition.

The Mint Act of April 2, 1792 authorized the establishment of a mint at Philadelphia, and on July 31st of the same year a plain brick building was erected for that purpose. It had the distinction of being the first building erected for public purposes by the United States. The above act directed the Chief Justice of the United States, the Secretary and the Comptroller of the Treasury, the Secretary for the Department of State, and the Attorney General, to make annual inspection of coins struck at the Mint.

The Mint began operations in a small way in 1792 by striking half dismes; tradition has it that the silver for this coinage was from Washington's personal silverware. The regular copper coinage of cents and half cents started in 1793, silver in 1794, and gold in 1795.

	Good	Fine
1792 Half Disme. Silver	50.00	75.00

10 Dollars 1849—Weight 221.5 gr. 1,000.00

	Very Fine
20 Dollars 1849—Weight 444.5 gr.	500.00

5 Dollars 1850—Weight 111 gr.	75.00

5 Dollars 1860—Weight 116 gr.	150.00

The Mormons established their mint to coin the large quantities of gold dust received from California. All the coins were short weight in comparison with the regular U. S. coinage. The 20 Dollar piece was the first coin of this denomination to be struck in the country. It had an intrinsic value of only $16 to $18. The letters G.S.L.C.P.G. = "Great Salt Lake City Pure Gold."

19 1870 Standard Silver. Girlish figure of Liberty. Silver, copper, aluminum. Plain and milled edges. (975 to 980)

20 1870 Same obverse. ℞ Regular die. Silver, copper, aluminum. Plain and milled edges. (981 to 986)

21 1871 Standard Silver. Indian princess, stars. Silver, copper, aluminum. (1144, 1145, 1146)

22 1871 Same obverse. ℞ Regular die. Silver, copper, aluminum. (1147, 1148, 1149)

23 1871 Standard Silver. Indian princess, without stars. Silver, copper, aluminum. (1150, 1151, 1152)

24 1871 Same obverse. ℞ Regular die. Silver, copper, aluminum. (1153, 1154, 1155)

25 1872 Barber's Amazonian design. Silver, copper, aluminum. (1263, 1264, 1265)

26 1877 Sailor head. ℞ Regular die. Silver, copper. (1541, 1542)

27 1879 Washlady design. Silver, copper, white metal. (1620, 1621, 1622)

28 1879 Morgan design as on dollar. Silver, copper. (1623, 1623a)

29 1882 Morgan school girl design. Silver, copper. (1662, 1663)

30 1891 Type adopted in 1892. Silver. (1733)

DIMES

1 1863 Postage currency. "Exchanged for U. S. Notes." Silver, copper, aluminum, tin (381 to 387). A-W give various metal compositions which would hardly be possible to identify.

2 1863 Regular obverse with date omitted. R Reverse of No. 1. Silver-nickel. (390)

3 1863 Obverse is same as reverse of No. 1. R Regular reverse of the year. Aluminum. (Not in A-W)

4 1868 Regular obverse with date omitted. R Similar to regular reverse but date and star added within wreath. Nickel, copper. (664, 665)

5 1868 Obverse is same as reverse of preceding. R Same as No. 1. Nickel, aluminum, copper. (666, 667 and unpub.)

6 1868 Type of large cent. Nickel, copper. (669, 670)

7 1869 Standard Silver. Turban head, 2 stars on forehead. Silver, copper, aluminum. Plain and milled edges. (774 to 779)

8 1869 Standard Silver. Bandeau, one star on forehead. Silver, copper, aluminum. Plain and milled edges. (780 to 785)

9 1869 Standard Silver. Pointed diadem. Silver, copper, aluminum. Plain and milled edges. (786 to 791)

10 1869 Regular obverse with date omitted. ℞ SIL. 9. NIC. 1. 1869. Silver, copper, copper-nickel. (792, 793, 794)

11 1869 Same obverse. ℞ SIL.NIC. COP. 1869. Silver, nickel, copper. (Unpub., 795, 796)

12 1870 Standard Silver. Same obverse type as No. 7. Silver, copper, aluminum. Plain and milled edges. (987 to 992)

13 1870 Standard Silver. Same obverse type as No. 8. Silver, copper, aluminum. Plain and milled edges. (993 to 998)

14 1870 Standard Silver. Same obverse type as No. 9. Silver, copper, aluminum. Plain and milled edges. (999 to 1004)

15 1870 Standard Silver. Same obverse type as No. 7. ℞ Value and date within wreath. Silver, copper, aluminum. Plain and milled edges. (1005 to 1010)

16 1870 Standard Silver. Same obverse type as No. 8. ℞ As preceding. Silver, copper, aluminum. Plain and milled edges. (1011 to 1016)

17 1870 Standard Silver. Same obverse type as No. 9. ℞ As preceding. Silver, copper, aluminum. Plain and milled edges. (1017 to 1022)

18 1870 Standard Silver. Girlish figure of Liberty. Silver, copper, aluminum. Plain and milled edges. (1023 to 1028)

19 1870 Same obverse. ℞ Regular die. Silver, copper, aluminum. Plain and milled edges. (1029 to 1034)

20 1871 Standard Silver. Indian princess, stars. ℞ Same as No. 18. Silver, copper, nickel, aluminum. (1165 to 1168)

21 1871 Same obverse. ℞ Regular die. Silver, copper, aluminum. (1162, 1163, 1164)

22 1871 Standard Silver. Indian princess, without stars. ℞ Same as No. 18. Silver, copper, aluminum. (1172, 1173, 1174)

23 1871 Same obverse. ℞ Regular die. Silver, copper, aluminum. (1169, 1170, 1171)

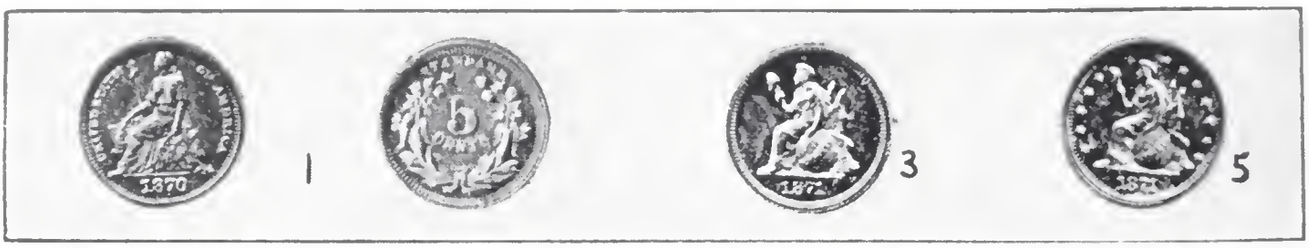
24 1877 Sailor head. ℞ Regular die. Silver and copper. (1543, 1544)

25 1879 Washlady design. Silver and copper. (1624, 1625)

26 1879 Morgan design as on dollar. Silver, copper. (1626, 1627)

27 1879 Same type but wreath on reverse is quite different. Silver, copper. (1628, 1629)

28 1891 Type adopted in 1892. Silver. (1734)



HALF DIMES

1 1870 Standard Silver. Girlish figure of Liberty. Silver, copper, aluminum. Plain and milled edges. (1038 to 1043)

2 1870 Same obverse. ℞ Regular die. Silver, copper, aluminum. Plain and milled edges. (1044 to 1049)

3 1871 Standard Silver. Indian princess, without stars. Silver, copper, aluminum. (1178, 1179, 1180)

4 1871 Same obverse. ℞ Regular die. Silver, copper, aluminum. (1181, 1182, 1183)

5 1871 Standard Silver. Indian princess, with stars. Silver, copper, aluminum. (1184, 1185, 1186)

6 1871 Same obverse. ℞ Regular die. Silver, copper, aluminum. (1187, 1188, 1189)

SILVER THREE CENT PIECES

1 1849 Obverse of half dime. ℞ Large 3. Silver. (108)

2 1849 Same obverse. ℞ Large III. Silver. (108a)
Adams lists under No. 109 a muling of the two reverses. This we have seen.

3 1850 Liberty cap. ℞ Value.
Adams lists under No. 111 a muling of the reverses of No. 1 and 3. This we have never seen.

4 1870 Standard Silver. Girlish figure of Liberty. Silver, copper, aluminum. Plain and milled edges. (1057 to 1062). Same type as Half Dime No. 1.

THE PATTERN CENTS OF 1856, 1858 AND 1859

PATTERN CENTS OF 1856, 1858, 1859 Top row—obverses. Lower row—reverses

1—1856 Flying eagle. Tobacco wreath as adopted in 1857. Pure nickel, copper-nickel, copper and bronze. The copper-nickel piece is the coin usually found, all the others are very rare. A variety is known with the date twice engraved.

2—1856 Flying eagle. Oak wreath and shield. Copper and copper-nickel. Very rare.

3—(1856) Eagle in plain field, no inscription or date. Nickel and copper. Very rare. Adams also mentions in copper-nickel, but I have never seen it nor have I seen the trial pieces to which he gives the numbers 214 and 215. These last, if they exist, are of such rarity that they may be rated as unobtainable.

4—1858 Large flying eagle. Tobacco wreath. Copper, copper-nickel and nickel. The first and last very rare.

5—1858 Large flying eagle. Oak wreath. Copper-nickel.

6—1858 Large flying eagle. Laurel wreath. Copper-nickel and copper. The last very rare.

7—1858 Large flying eagle. Oak wreath and shield. Copper-nickel.

8—1858 Small flying eagle. Tobacco wreath. Copper-nickel and copper. The last very rare.

9—1858 Small flying eagle. Oak wreath. Copper-nickel.

10—1858 Small flying eagle. Laurel wreath. Copper-nickel.

11—1858 Small flying eagle. Oak wreath and broad shield. Copper-nickel and copper. The last very rare.

12—1858 Indian head. Tobacco wreath. Copper-nickel.

13—1858 Indian head. Oak wreath. Copper-nickel.

14—1858 Indian head. Laurel wreath. Copper-nickel, copper and nickel. The last two very rare.

15—1858 Indian head. Oak wreath and broad shield. Copper-nickel. I have not seen the various other mulings described by Adams.

16—1859 Regular obverse. Reverse with oak wreath and narrow shield as adopted in 1860. Copper and copper-nickel.

17—1859 Regular obverse. Reverse with oak wreath and broad shield. Copper-nickel.

18—1859 Regular obverse. Reverse with heavy oak wreath. Copper-nickel. I have not seen the pattern described by Adams under number 314 with the tobacco wreath reverse. To complete this series of eighteen pieces in copper-nickel is a somewhat difficult task today.

ENCASED POSTAGE STAMPS

Patented by J. Gault, 1862

The great scarcity of small change during the Civil War made these stamps, encased in a metal frame, very popular. Many concerns used them as an advertising medium and placed their names on the back in embossed letters.

Values are for very fine specimens with mica intact.

Aerated Bread Co., New York

1 Cent	12.50

Ayer's Cathartic Pills, Lowell, Mass.

1 Cent	4.50
3 Cents	4.50
5 Cents	7.50
10 Cents	25.00
12 Cents	17.50

Varieties with long and short arrows below legend occur on all of the preceding.

Ayer's Sarsaparilla

Varieties occur with the word AYER'S in small, medium and large letters.

1 Cent. Small AYER'S	7.50
1 Cent. Medium AYER'S	6.00
3 Cents. Small AYER'S	4.50
3 Cents. Medium AYER'S	4.50

CONFEDERATE STATES OF AMERICA

		Unc.
1861	Half Dollar	3,000.00
1861	Half Dollar. Restrike	35.00

1861	Cent. Copper	50.00
1861	Cent. Copper-nickel	75.00

In 1861 the Confederate government took over the New Orleans mint and prepared a die for a half dollar. It is said that four specimens were struck from this die using the regular 1861 obverse. Only two pieces are known to exist. Many years after the Civil War the die of this coin was discovered and eventually bought by Mr. J. W. Scott. Mr. Scott purchased about 500 half dollars of 1861 and had the Confederate die impressed upon the reverse after it had been planed off. These coins are the pieces known as "restrikes." At the same time Mr. Scott struck about 500 pieces in white metal with the Confederate impression on one side and his advertisement on the other.

The cents were a speculative issue designed by Geo. H. Lovett, a medallist and die sinker of New York City.

Mint Marks

The Philadelphia mint coins do not have any mint marks.

The only exception is that of the new composition 5 cent piece first coined in 1942.

Other marks are found as follows—

Indian head cents—under the wreath.

Lincoln cents—under the date.

Liberty head nickels—under period at left of CENTS.

Buffalo nickels—under FIVE CENTS.

Jefferson nickels 1938-42 at right of building. After 1942—large letter above building.

Silver Three Cents—1851. O only. O opposite opening of C.

Half Dimes—under value or under wreath.

Dimes—under value or under wreath. From 1916—at left of fasces.

Twenty Cents—under eagle.

Quarter Dollars—under eagle. After 1916—at left of date. After 1932—under eagle.

Half Dollars—1838 and 1839 O. The O over date. After 1840—under eagle. 1916, 1917—On obverse over motto. After 1917—On left part of reverse near edge.

Silver Dollars—under eagle. After 1921—near eagle's wing on left part of reverse.

Trade Dollars—under eagle.

Gold Dollars—under wreath.

Quarter eagles—1838. 1839 over date. 1840 to 1907—under eagle. 1908 to 1929—near border on lower left part of reverse.

Three Dollar Pieces—under wreath.

Half eagles—1838. 1839 over date. 1840 to 1908—under eagle. 1908 to 1929—near border on lower left part of reverse.

Eagles—under eagle. After 1907—at left of value.

Double eagles—under eagle. After 1907—above date in rays.

The size of mint marks varies greatly, particularly on the early S coinage. CC mark is apt to be uneven and also varies in size. The placing of mint marks also makes additional varieties.

Mottoes On Our Coins

The motto "E Pluribus Unum" first appears on the half eagle of 1795 being featured on the scroll above eagle, as copied from the Great Seal of the United States. "In God We Trust" first appears in 1864 when the Civil War had stirred up a great religious sentiment in the country.

Signatures on Coins

The mint engraver, J. B. Longacre, placed his initials on the double eagle of 1849 and on the Three Dollar piece issued in 1854, in both instances on the truncation of the neck. The 1864 and subsequent issues of the bronze cent have L on the ribbon hanging from bonnet.

The engraver, Geo. T. Morgan, placed an M on both sides of his design for the silver dollar of 1878. This shows on the truncation of the bust and on the wreath ribbon of reverse.

Charles E. Barber engraved a B on the truncation of the Liberty head on the 1892 silver dime, quarter and half dollar. The 1907 double eagle bears the initials A S G (Augustus St. Gaudens) under the date although he did not sign the eagle.

The new 1908 coinage of quarter and half eagles shows the initials B.L.P. (Bela L. Pratt) under the Indian head. The 1921 Peace dollar has the letter F under the head (Anthony de Francisci). The 1916 half dollar bears the initials of A. A. Weinman in monogram in the lower field of the reverse, also on the obverse of the dime.

The letter M appears at the base of the right portal on the 1916 quarter dollar and is the initial of Herman MacNeil.

James E. Fraser, the designer of the buffalo nickel placed an F under the date.

The Lincoln Cent of 1909 had the initials V.D.B. (Victor D. Brenner) on the reverse but being rather conspicuous they were removed before the end of the year, but later replaced under the shoulder in 1918.

Arrows At Date

The arrows on either side of date on coins of 1853, 1854 and 1855 indicate the reduction in weight while those on the coins of 1873 and 1874 indicate the slight increase.

Drapery on Figure of Liberty

It will be noted from the various illustrations of the silver coins 1839 to 1841 that one variety has the elbow quite free while the other has a much more extensive drapery covering the entire elbow. Other differences also occur.

The Condition of a Coin

PROOF—Specially struck coins with a mirror-like surface sold to collectors at the United States Mint.

UNCIRCULATED—A new coin showing no evidence of circulation, although not necessarily brilliant.

VERY FINE—Showing only slight evidence of circulation.

FINE—Showing slight sign of wear but still an attractive piece.

VERY GOOD—Showing more or less wear but lettering clear and plain.

GOOD—Showing greater wear with higher parts of design partially gone.

FAIR—Considerably worn and type does not all show.

Proof Coins

Proof coins, in all metals, were first struck at the mint for collectors in 1858. They have a mirror-like surface unlike the regular issues. All such pieces were originally sold at a premium. The U. S. mint abolished this practice in 1915 but resumed it again in 1936. Sets were struck from 1936 to 1942 and it is thought the practice will be maintained after the war.

Valuations Quoted

Condition governs the price of a coin and some pieces are rarely met with in fine state; for this reason there may be a wide variation in price between good and fine preservation. This is especially true of the early American pieces and the first types of cents and half cents. An attractive color and appearance also adds to the value of such coins.

NOTES ON THE VARIOUS DENOMINATIONS

Half Cents

The standard work on this subject is—The United States Half Cents by Ebenezer Gilbert. New York 1916.

Early dates 1793 to 1797 are becoming increasingly scarce in fine condition.

The punctuated date on 1795 is a comma-like die break after the 1.

The two varieties of 1796 rarely come in better than "good" condition.

1797 lettered edge variety is a very rare coin and when found is usually in poor condition.

1797 plain edge variety frequently comes struck on planchets cut from early cents.

1806 large 6 variety is not uncommon in uncirculated condition.

1831, 1836 Restrikes from the original dies of these years were made, also restrikes from the obverse die and reverse die of 1852.

Large and small berries in wreath. Two reverses, one with large berries and one with small were used on all the rare dates between 1840 and 1852.

Large Cents

The following reference works are usually available—

The United States Coinage of 1793-Cents and Half Cents. By S. S. Crosby. Boston 1897.

A reprint has been made of the plates.

Varieties of U. S. Cents of the year 1794. By Frossard and Hays. New York 1893.

The United States Cents of the year 1794. By S. H. Chapman. Philadelphia 1926.

United States Cents of 1796. Gilbert-Elder. New York 1909.

United States Cents of 1798 and 1799. By Geo. H. Clapp. 1931.

The United States Cents of the years 1801, 1802, 1903. By H. R. Newcomb. Detroit 1925.

United States Cents 1804 to 1814. By Geo. H. Clapp. New York 1941.

The Cents of the United States. By F. W. Doughty. New York 1890. Reprints have been made.

United States Cents 1816-1857. By F. D. Andrews. Reprints have been made of this pamphlet.

United States Copper Cents 1816-1857. By Howard R. Newcomb. New York 1944.

Values on early cents in very fine to uncirculated condition are very difficult to give as so much depends upon the striking, color and general appearance.

Proofs exist of nearly all dates of cents after 1820. They are very rare.

1793. Of the famous strawberry leaf variety only four specimens are known, three being in the collection of the American Numismatic Society.

1795 Jefferson head. This interesting coin is not included in the catalogue as it does not seem to be a mint product.

1804 Restrike. Struck from dies discarded and sold as junk. Not a mint product.

1823 Restrike. Struck from dies discarded by the mint. Not a mint product.

1826 over 25. The top line of the 5 barely shows under the top curve of the 6.

1839 over 36 usually comes in worn condition although a few specimens are known very fine to uncirculated. In such condition they command a very high price.

The various names given to the different types of 1839 cents date back to early collecting days.

Small Cents

The entire series of copper-nickel cents 1856 to 1864 often come in uncirculated condition with a brilliant proof-like surface. Real proofs have a sharp edge and must not be confused with such pieces.

1857-1864. The composition of these cents was 88 parts copper and 12 parts nickel.

Recut dates of 1856, 57, 58 are often met with. They usually bring a slightly higher price than the regular dies.

1858 Flying eagle. In the large letter variety the base of the A in AMERICA touches the base of the M.

1858 Flying eagle. There are a good many die varieties of this coin and really more than two sizes of letters.

1894 Date recut. Rather scarce.

The bronze Indian head coins both uncirculated and proofs are usually toned in various color shades. Perfect bright red coins are very scarce and command a price well above catalogue.

The bronze cents from 1864 on are composed of 95 parts copper, 3 parts tin, 2 parts zinc.

1864 with L on ribbon for Longacre, the designer of the coin. The cut shows plainly where the L is found.

Lincoln Cents

Proofs of this series are usually very unsatisfactory except those 1936 to 1942. The coins 1909 to 1916 have a surface almost the same as ordinary uncirculated specimens but the edge is sharp. As these early dates were often in the white mint wrappers for several years they are generally badly discolored.

1909 Lincoln. First issue has the initials VDB at the lower part of reverse.

1922 D mint. Poorly struck specimens exist showing the D very faintly or not at all.

Uncirculated cents before 1935 should not be expected in bright red condition, they are usually toned to various shades.

Cents from the S and D mints, particularly those between 1922 and 1930, are frequently poorly struck and really sharp specimens of this period are unusual.

The zinc-steel cents coined in 1943 were struck in steel with a zinc coating of 0.0005 inch. They were extremely unpopular.

Two Cent Pieces

1864 Small motto. The letters are small and block like while the large letters are of an entirely different form.

Proofs of 1864, 65, 66 are rarely found brilliant but are usually a rather dull color.

Nickel Three Cents

The composition is 75 parts copper and 25 parts nickel.

1887 over 86. This is not a very clear over date. The outside lower curve of 6 shows at left of 7.

Nickel Five Cents

The composition of the 5 cent pieces from 1866 to 1942 is 75 parts copper and 25 parts nickel. The coin authorized on March 27, 1942 has the following content—copper 56, silver 35, manganese 9.

Not all proofs of this series are of the same brilliance. Some dates in the 80's or 90's merely have a frosty like appearance but can be identified as proofs by their sharp edge.

1937 D. Some poorly struck pieces of this date give the buffalo the appearance of having only three legs.

1939. Coins of this date have been found with the words MONTICELLO and FIVE CENTS re-engraved.

The buffalo type nickels of the S and D mints are usually not as well struck as the P mint coins. The high relief on Indian head and on buffalo gives an appearance of flatness. The mint marks are often mere blobs. Well struck coins of some dates are almost unknown.

Half Dimes

The standard work on this subject is—The United States Half Dimes by D. W. Valentine. New York 1931 (American Numismatic Society).

Dimes

1796. One of the commonest varieties of this date shows a lumpy die break at left of date.

1798 over 97. There are two reverse dies combined with this obverse, one having 13 stars above eagle (the rarest) and the other 16 stars.

1798. Perfect date. Two distinct varieties of obverse, one with very small 8, the other with an average size 8.

1804. Two varieties of reverse, with either 13 or 14 stars above eagle.

1805. Two reverse varieties. With either 4 or 5 berries on olive branch in eagle's claw.

Twenty Cent Pieces

1876 CC. While the mint records show a substantial number were coined less than ten specimens are known. All of these with one exception are in mint condition.

Quarter Dollars

The standard work on this subject is—The Early Quarter Dollars of the United States, 1796-1838. By A. W. Browning. Unfortunately only 50 copies were issued.

1822. 25 over 50 variety. The engraver made an error and first cut 50 instead of 25 as value on reverse.

1827 Restrike. Several restrikes made from discarded dies in both silver and copper.

The same reverse was used in 1828.

The entire series of "Liberty standing" quarters is difficult to get well struck up. The head is usually rather indefinite. The two coins of the first type 1916, 1917 have the best dies.

Half Dollars

The standard work is—A Register of Half Dollar Die Varieties and Sub-Varieties. By M. L. Beistle. Shippensburg, Pa. 1929.

1794, 1795. There are several varieties of the first date and over 30 varieties of 1795. All are listed and illustrated in the Beistle work.

1807. 50 over 20 variety. The engraver made an error on first figure of value on reverse and first cut a 2 instead of a 5 in 50.

1832 Large letters on reverse. May be quickly identified by the heavy die break across eagle's wing.

The S mint half dollars 1858 to 1865 show three distinct sizes of S.

Silver Dollars

Reference work on early dollars—Hazeltine Type Table Catalogue of U. S. Dollars, Half Dollars and Quarter Dollars. Philadelphia 1881. Reprints have been made.

1801, 1802, 1803 Restrikes. These coins were made about 1870, obverses of 1801 and 1802 from entirely new dies, obverse of 1803 from an old die. All of the dollars have the reverse of the 1804 dollar of first type.

1804. The first dollar of this date was acquired from the mint about 1845. The dies being extant several others were struck between that time and 1878. The later strikes are from the second die. Of those struck from the first die only six are known.

1836, 1838, 1839. While these have generally been accepted as part of a collection of dollars they are really the first patterns of the Gobrecht design regularly adopted in 1840. For a complete list of Gobrecht dollars see under Pattern Coins.

United States Gold Coins

Where an unusually small coinage occurs we have placed the number in brackets after the date. Early dates of 1795 to 1834 are quoted only in very fine condition. Worn specimens sell for less and really uncirculated pieces bring a great deal more.

Gold Proofs

This rare series represents the "de luxe" group of a United States coin collection. While the mint records are not complete it is known that only a small quantity of sets were made in any year and those of the period before 1885 are very rare.

Gold Dollars

1849. Open and close wreath. The first issues of this year have a wreath with branches spread wide. In the latter part of the year the type shows the branches drawn up to the top close to figure.

The records of the Charlotte mint show a coinage of 4 pieces in 1854. but no specimen is known. It is probable that they were dollars of 1853 delivered by the coiner in 1854.

1855 C, D, O. The 8 in date is very weak and barely shows on any of these dates. The 1855 D is the poorest struck.

The Dahlonega mint shows a coinage of 1,566 pieces in 1860 but none in 1861. It is probable that the fiscal year includes both dates.

Quarter Eagles

1834 with motto over eagle is one of the great rarities. Probably not over a dozen are known.

No mint record exists of a coinage in 1841 but 2 or 3 specimens have turned up in proof sets of that year. One or two others are known, that are evidently impaired proofs showing circulation.

1845 O. While there is no mint record of coinage a number of specimens have turned up and the coin is now usually obtainable.

A small quantity of 1848 coins were stamped CAL over eagle to indicate that they were struck from the first California gold received at the mint.

Three Dollar Pieces

The mint record of the rare dates is evidently confused as 1873 is not nearly as rare as indicated by the coinage record and at least 30 specimens are known of 1875.

1856 S. Large and small mint mark S of which the smaller is much the scarcest.

1870 S. Only two specimens of this coin were struck. One remains in the cornerstone of the San Francisco mint, the other is in a private collection.

Half Eagles

The many great rarities in this series would make a story by themselves. Only a very small number of specimens are known of such dates as 1798 small eagle, 1815, 1819, 1821, 1822, 1824, 1827, 1828, 1829, 1832.

1822. Only three specimens are known of this coin, one being in the U. S. Mint Collection.

1832. Curled 2, 12 stars is one of the rarest U. S. coins. The editor knows of only three pieces.

We have seen one or two coins dated 1916 evidently of the Philadelphia mint but are not convinced they are not S mint pieces poorly struck so that S does not show.

Eagles

The demand for the first types 1795 to 1804 has increased enormously since the last catalogue was published. We have given a valuation on the dates 1838 to 1854 only in very fine condition as uncirculated specimens are rarely met with and those of a lesser grade seldom collected.

The St. Gauden's design in 1907 has as interesting varieties as the double eagles. Of the variety with periods and rolled edge only 50 are said to have been struck while the same variety with sharp wire edge is said to have been coined to the extent of 500 pieces.

The 1933 eagle is quite a rare piece and probably not over 25 specimens exist.

Double Eagles

Twenty Dollar pieces of the 19th century are very unusual in really uncirculated condition. These coins were made to use and are usually nicked and scratched by being in bags.

The St. Gauden's type produced in 1907 brought forth a number of interesting varieties. Some of the dates are of extreme rarity notably 1921 of which only 4 or 5 specimens are known, 1931, 1932 of which there are perhaps 25 known. All specimens of the 1933 coin have finally been ordered returned to the Treasury Dept. by the U. S. Secret Service on the ground that they were not legally released by the mint.

Private Gold Coins

We have adopted a system of valuing this series in very fine condition only. Private gold coins in uncirculated condition are very rare and command high prices when offered.

California Gold

Small gold coins were privately struck for use in California from 1852 to 1881 but they were more in the nature of souvenirs and were not in general use. Certain charms in imitation of these coins are still sold in western curio shops.

Domestic Coin Manufactured by Mints of the United States Since Organization to Include the Year 1935

Tabulation of the coinage 1936 to 1944 follows by years

Coinage during the early years is not susceptible of exact statement by years of actual date on coin, the registry of annual coinage being of coin delivered by the coining departments of mints within the given year, and these deliveries not having been invariably completed within the year of the date on coin as now required.

The following pages are reprinted from the pamphlet "Domestic Coin Manufactured by Mints of the United States" compiled by the office of the Director of the Mint.

For sale by the Superintendent of Documents, Washington, D. C. Price 5 Cents.

Also available at the same source and price—

"Information relating to United States Coins and Medals." Prepared under direction of the Director of the mint.

Gold coinage of the mint at Philadelphia from its organization, 1793, to time gold coin was demonetized, Jan. 30, 1934
